Joyal Mulheron is a Program Director for the National Governors Association's Health Division located in Washington, DC. She manages the public and population health portfolio for the association by providing states with specialized technical assistance on programs and policies related to disease management, prevention, state employee health benefits, childhood obesity, and wellness design.

Prior to coming to NGA, Ms. Mulheron served as a Senior Policy Manager to American Cancer Society and independently consulted for the National Academies of Sciences. Ms. Mulheron holds a Master of Science in Biotechnology from Johns Hopkins University and undergraduate degrees in biochemistry and English from Virginia Tech.
